

## Additional Pests of Concern for 2012

## Appendix H

\*Scientific names link to GPDD datasheets, where available

Source	Scientific Name	Common Name
NPAG	<a href="#">Geosmithia morbida (provisional name)</a>	Thousand cankers
	<a href="#">Gymnosporangium yamadae</a>	Japanese apple rust
	<a href="#">Monsoma pulveratum</a>	Green alder sawfly
	<a href="#">Raffaelea lauricola</a>	Laurel wilt
OPIS reported pest	<a href="#">Cydalima perspectalis</a> (Syn: <i>Diaphania perspectalis</i> )	Box tree pyralid
Previously listed on an AHP List from 2011 or earlier	<a href="#">Acroceras zizanioides</a>	Oat grass
	<a href="#">Actinoscirpus grossus</a>	Giant bulrush
	<a href="#">Ageratina riparia</a>	Mistflower
	<a href="#">Aleurocanthus spiniferus</a>	Orange spiny whitefly
	<a href="#">Arion vulgaris</a> (Syn: <i>Arion lusitanicus</i> )	Spanish slug
	<a href="#">Bursaphelenchus cocophilus</a>	Red ring nematode
	<a href="#">Cataenococcus hispidus</a>	Cocoa mealybug
	<a href="#">Cecidophyopsis ribis</a>	Black currant gall mite
	<a href="#">Chilecomadia valdiviana</a>	Carpenter worm
	<a href="#">Coconut Cadang-Cadang Viroid</a>	CCCVd
	<a href="#">Colocasia bobone disease virus</a>	CBDV
	<a href="#">Crocidolomia binotalis</a>	Cabbage cluster caterpillar
	<a href="#">Darna pallivitta</a>	Nettle caterpillar
	<a href="#">Elsinoe batatas</a>	Sweet potato scab
	<a href="#">Gymnocoronis spilanthoides</a>	Senegal tea plant
	<a href="#">Hygromia cinctella</a>	Girdled snail
	<a href="#">Juncus prismatocarpus</a>	Jointed rush
	<a href="#">Meloidogyne coffeicola</a>	Coffee root-knot nematode
	<a href="#">Meloidogyne mali</a>	Apple root-knot nematode
<i>Metamasius</i> spp.	Exotic metamasius weevils	

Source	Scientific Name	Common Name
Previously listed on an AHP List from 2011 or earlier	<a href="#"><i>Pericyma cruegeri</i></a>	Poinciana looper
	<a href="#"><i>Philephedra broadwayi</i></a>	No common name
	<a href="#"><i>Phoma tracheiphila</i></a>	Mal secco
	<a href="#"><i>Pinus roxburghii</i></a>	Chir pine
	<a href="#"><i>Planococcus lilacinus</i></a>	Coffee mealybug
	<i>Pomacea</i> spp.	Exotic apple snails
	<a href="#"><i>Protopulvinaria longivalvata</i></a>	No common name
	<a href="#"><i>Pulvinaria polygonata</i></a>	Cottony citrus scale
	<a href="#"><i>Rathayibacter toxicus</i></a>	Annual ryegrass toxicity
	<a href="#"><i>Rhabdoscelus obscurus</i></a>	Sugar cane weevil
	<a href="#"><i>Rhynchophorus palmarum</i></a>	South American palm weevil
	<a href="#"><i>Rubus alceifolius</i></a>	Giant bramble
	<a href="#"><i>Stenchaetothrips biformis</i></a>	Rice thrips
	<a href="#"><i>Synanthedon myopaeformis</i></a>	Red-belted clearwing
	<a href="#"><i>Synchytrium endobioticum</i></a>	Potato wart
	<a href="#"><i>Taro Bacilliform Virus</i></a>	TaBV
	<a href="#"><i>Torradovirus</i></a>	ToTV, ToANV, ToMarV
	<a href="#"><i>Toxoptera odinae</i></a>	Mango aphid
<a href="#"><i>Tropilaelaps clareae</i></a>	Bee mite	
<a href="#"><i>Withania somnifera</i></a>	Ashwagandha	
Previously listed in the Asian Defoliator Survey	<a href="#"><i>Yponomeuta malinellus</i></a>	Apple ermine moth
Previously listed in the EWB/BB National Survey	<a href="#"><i>Callidiellum rufipenne</i></a>	Japanese cedar longhorned beetle
Greater Caribbean Safeguarding List	<a href="#"><i>Conogethes punctiferalis</i></a>	Castor capsule borer
	<a href="#"><i>Gymnandrosoma aurantianum</i></a>	Macadamia nutborer
	<a href="#"><i>Schizotetranychus hindustanicus</i></a>	Citrus Hindu mite

Source	Scientific Name	Common Name
Greater Caribbean Safeguarding List	<a href="#"><i>Stenoma catenifer</i></a>	Avocado seed moth
	<a href="#"><i>Sternochetus mangiferae</i></a>	Mango seed weevil
Lower ranking pests from the 2012 AHP List	<a href="#"><i>Aceria hibisci</i></a>	Hibiscus erinium mite
	<a href="#"><i>Aceria litchii</i></a>	Litchi erinose mite
	<a href="#"><i>Banana Bunchy Top Virus</i></a>	BBTV
	<i>Cernuella</i> spp.	Striped Helicella Snail
	<i>Cylindrocladium pseudonaviculatum</i>	No common name
	<a href="#"><i>Fusarium oxysporum</i> f. sp. <i>cubense</i></a>	Fusarium wilt of banana (Panama wilt)
	<a href="#"><i>Leek Yellow Stripe Virus</i></a>	LYSV
	<a href="#"><i>Meloidogyne fallax</i></a>	False columbia root-knot nematode
	<a href="#"><i>Meloidogyne paranaensis</i></a>	Parana coffee root-knot nematode
	<a href="#"><i>Pseudomonas syringae</i> pv. <i>aesculi</i></a>	Bleeding canker of horse chestnut
	<a href="#"><i>Rhynchophorus ferrugineus</i></a>	Red palm weevil
	<i>Tetranychus musae</i>	No common name, a spider mite
	<a href="#"><i>Tibraca limbativentris</i></a>	Rice stalk stink bug
<a href="#"><i>Xanthomonas campestris</i> pv. <i>musacearum</i></a>	Xanthomonas bacterial wilt	
Asian Defoliators	<i>Lymantria albescens</i>	Okinawa gypsy moth
	<i>Lymantria dispar japonica</i>	Japanese gypsy moth
	<a href="#"><i>Lymantria monacha</i></a>	Nun moth
	<i>Lymantria postalba</i>	White-winged gypsy moth
	<i>Lymantria umbrosa</i>	Hokkaido gypsy moth
