Additional Pests of Concern for Fiscal Year 2010

Source*	Scientific Name	Common Name
NPAG	<i>Geosmithia</i> sp.**	Thousand cankers
	Gymnosporangium yamadai	Japanese apple rust
	<i>Pityophthorus juglandis</i> **	Walnut twig beetle (vector of thousand cankers disease)
	<i>Raffaelea lauricola</i> **	Laurel wilt
	Xyleborus glabratus	Redbay ambrosia beetle (vector of laurel wilt disease)
New Pest Detections	Acrolepiopsis assectella	Leek moth
OPIS reported pest	Diaphania perspectalis	Box tree pyralid
PPQ Domestic Program	Phytophthora ramorum	Sudden oak death
	Plum Pox Virus	PPV
Previously listed on AHP Prioritized Pest List	Acroceras zizanioides	Oat grass
	Actinoscirpus grossus	Giant bulrush
	Ageratina riparia	Mistflower
	Aleurocanthus spiniferus	Orange spiny whitefly
	Arion vulgaris (Arion lusitanicus)	Spanish slug
	Bursaphelenchus cocophilus	Red ring nematode
	Cataenococcus hispidus	Cocoa mealybug
	Cecidophyopsis ribis	Black currant gall mite
	Chilecomadia valdiviana	Carpenter worm
	Coconut cadang-cadang viroid	CCCVd
	Colocasia bobone disease virus	CBDV
	Crociodolomia binotalis	Cabbage cluster caterpillar
	Cydia funebrana	Plum fruit moth
	Darna pallivitta	Nettle caterpillar
	Elsinoe batatas	Stem and leaf scab
	Gymnocoronis spilanthoides	Senegal tea plant
	Hygromia cinctella	Girdled snail
	Juncus prismatocarpus	Jointed rush
	Meloidogyne coffeicola	Coffee root-knot nematode
	Meloidogyne mali	Apple root-knot nematode
	<i>Metamasius</i> spp.***	Exotic metamasius weevils
	Ostrinia furnacalis	Asian corn borer

<i>Pericyma cruegeri</i>	Poinciana looper
<i>Peronosclerospora maydis</i>	Downy mildew of corn
<i>Philephedra broadwayi</i>	
<i>Phoma tracheiphila</i>	Mal secco
<i>Pinus roxburghii</i>	Chir pine
<i>Planococcus lilacinus</i>	Coffee mealybug
<i>Pomacea</i> spp.***	Exotic apple snails
<i>Protopulvinaria longivalvata</i>	
<i>Pulvinaria polygonata</i>	Cottony citrus scale
<i>Rathayibacter toxicus</i>	Annual ryegrass toxicity
<i>Rhabdoscelus obscurus</i>	Sugar cane weevil
<i>Rhynchophorus palmarum</i>	Palm Weevil
<i>Rubus alceifolius</i>	Giant bramble
<i>Sclerophthora rayssiae</i> var. <i>zeae</i>	Brown stripe downy mildew
<i>Stenchaetothrips biformis</i>	Rice thrips
<i>Synanthedon myopaeformis</i>	Red-belted clearwing
<i>Synchytrium endobioticum</i>	Potato wart
<i>Taro bacilliform virus</i>	TaBV
Torradovirus***	ToTV, ToANV, ToMarV
<i>Toxoptera odinae</i>	Mango aphid
<i>Tropilaelaps clareae</i>	Bee mite
<i>Withania somnifera</i>	Ashwagandha

*NPAG stands for New Pest Advisory Group. OPIS stands for Offshore Pest Information System. AHP stands for Analytic Hierarchy Process.

**No pest datasheet currently available in the Global Pest and Disease Database (GPDD).

***The GPDD does not create pest datasheets at the genus level. Datasheets for species in this genus may be available. Please consult the [GPDD](#) for more information.
